

How College Credits are Calculated

The standard unit of measurement of college work is called a credit hour. Oregon Coast Community College uses the quarter credit hour system. A college quarter hour credit is granted in most cases for each 11-12 hours that a course meets during the term. A three-credit course then, would normally meet three hours per week for a total of 33-36 hours per term. During the eight-week summer term, more class hours are required each week to achieve the total required hours. Some laboratory and technical courses may have different hour requirements. A laboratory period may consist of two or more clock hours per credit hour. Two to three hours of outside preparation are normally required for each clock hour that a course meets. Some courses may require additional hours of preparation.

The Oregon Coast Community College Catalog is published each academic year. This catalog is effective Fall 2018 through Summer 2019.

While every effort is made to ensure the accuracy of the information in this catalog, Oregon Coast Community College has the right to make changes at any time without prior notice. This catalog is not a contract between Oregon Coast Community College and current or prospective students. Updates and corrections may be made from time to time to the online catalog; in the event of a discrepancy between a printed copy of the catalog and the online catalog, the Dean of Students and the Dean of Academics and Workforce will have the final authority in determining the catalog of record.
