

BA 222: Financial Management

Covers basic financial concepts and practices and includes analysis of company resources, types and sources of financing, forecasting and planning methods, and the roles of the money and capital markets.

Finance Management is designed to expose the student to the financial issues of determining the monetary resources needed by a business, the mix of these resources, the sources and uses of funds, the benefits, risks and costs associated with different types of resources and financing.

Course Student Learning Outcomes

Upon successful completion of Financial Management, the student will be able to:

- Demonstrate an understanding of the overall role and importance of the finance function.
- Demonstrate basic finance management knowledge.
- Communicate effectively using standard business terminology.
