

CG 58: Math Literacy Success

Explores attitudes, emotions and barriers towards math. Covers learning strategies to enhance math success, including math focused study skills, anxiety reduction techniques, learning styles, and more. Includes strategies for developing motivation and persistence for math class preparation and test taking.

Course Student Learning Outcomes

Upon completion of the course students should be able to:

- Develop identity as individuals who can successfully learn math concepts.
- Identify and employ strategies (i.e. test taking, study schedule, learning styles, etc) to prepare for and succeed in math courses.
- Recognize impact of attitudinal and emotional responses, motivation, and anxiety to math.
