Course Outcomes

Upon completion of the course students should be able to:

1. Evaluate the basic elements of a blueprint.
2. Create orthographic, oblique and isometric drawings by visualizing three dimensional objects.
3. Demonstrate an understanding of the AWS Welding Symbol and its location of elements.
4. Identify edge preparations and specifications for common weld types.
5. Demonstrate a basic understanding of metallurgy.
6. Identify common structural steel shapes and threaded and non-threaded fasteners.
7. Demonstrate a basic understanding of non-destructive examination (NDE).
