

Advanced Emergency Medical Technician Less than One-Year Certificate

The Emergency Medical Services Department offers career training for entry-level positions in emergency medical settings. Ambulance companies, fire departments, police departments, and various other industries requiring emergency medical services may employ EMS Providers. After successful completion of all requirements for EMT or AEMT, training, the student is eligible to apply to take the respective state licensure exams.

The Emergency Medical Services (EMS) Department trains and educates EMS professionals to excel in meeting the needs of the community. EMS Providers respond to medical emergencies by providing immediate care and transportation to the ill and injured. This department combines classroom lectures, hands-on skills labs and appropriate cooperative clinical and field experience to provide students with cognitive, psychomotor, and affective competence to function as effective EMS providers.

The Advanced Emergency Medical Technician (AEMT) provides basic and limited advanced emergency medical care and transportation for critical and emergent patients who access the emergency medical system. AEMTs function as part of a comprehensive EMS response, under medical oversight, performing interventions with the basic and advanced equipment typically found on an ambulance. The AEMT is a link from the scene to the emergency health care system. Minimum 20 credits. Students must meet all certificate requirements.

9. Have you lived, worked or attended school outside of Oregon for 60 or more consecutive days in the last 5 years?

Academic Requirements

- Attendance of the first session of each course is mandatory. Students missing the first class will be dropped from the roster by the department.

Technical Standards for Students with Disabilities Information

Emergency Medical Services is a physically and mentally challenging occupation. Education related to this field is designed to prepare students for these challenges. Emergency Medical Service students must be able to meet all established essential academic and clinical requirements to successfully complete the program. Persons with questions concerning qualifications are encouraged to contact the Health and Human Services office for individual consultation prior to formal application.

OCCC Emergency Medical Services provides the information on technical standards with examples of learning activities to inform prospective and enrolled students of the skills required in completing their chosen profession's curriculum and in the provision of health care services.

These [technical standards](#) reflect the performance abilities and characteristics that are necessary to successfully complete the requirements of clinical based health care programs. The technical standards are available on the college website.

Applicants with disabilities are encouraged to contact Dean of Students 541-867-8501. To be eligible for a reasonable accommodation, applicants must provide clear documentation of their disability. The Dean of Students is responsible for determining if reasonable accommodations can be identified and ensuring that accommodations are provided for OCCC students. These services are confidential and are separate from the nursing and college application processes. Early contact with the Dean of Students will ensure that accommodations can be made available when students begin the program.
